Background

Our GPHMC Institute has established Research & Development policy under Research committee (2021), Institutional ethical committee (May 2022) and Research advisory/ Doctoral committee (2023-24)

Preamble

Research and development is fundamentally about identifying a need or a problem, generating an idea or solution, converting that idea into a product or service, testing the product or service for efficacy, effectiveness and value, launching the product or service, continuing to monitor, evaluate and improve the product or service, and then finally sunsetting the product or service when it becomes obsolete.

Health research and development is really important to the health sector. It provides clinical practitioners and health system investors with innovation and associated evidence for prevention interventions, effective treatments and care pathways.

Aims

1. To set-up a Research oriented excellent Homoeopathic institute for the propagation of Homoeopathy among masses.
2. To promote Research with Innovation, Inter- connectivity of Teaching and Research and developing Innovative practices
3. To provide a conducive environment for the enhanced research productivity.

Research support by Gulabrao Patil Homoeopathic Medical College (GPHMC) Miraj

Our institute is committed to promote & ensure high standard of honesty & transparency in conduct of all Research endeavors in Homoeopathy which include projects, assignments & Research work of students & faculty members funded by Central Council Of Research In Homoeopathy (CCRH), AYUSH, Collaborative & other similar funding agencies.

To ensure ethics in human Research, the instruction has constituted an ethical committee as per the guidelines of *Indian Council of Medical Research* (ICMR). We are also committed to maintain the proper IPR following guidelines of *Indian Council of Medical Research* (ICMR) under the heading of IPR manual 2017.

The aim of the institute is to promote our institute into a center of excellence for Research in Homoeopathy.

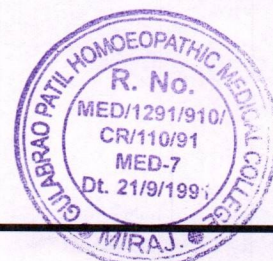

Norms and Guidelines for Research -

Principle of essentiality whereby after due consideration of all alternatives in the light of existing knowledge, the use of human participants is considered to be essential for the proposed research. This should be duly vetted by an ethics committee (EC) independent of the proposed research.

Principle of voluntaries whereby respect for the right of the participant to agree or not to agree to participate in research, or to withdraw from research at any time, is paramount. The informed consent process ensures that participants' rights are safeguarded.

Principle of non-exploitation whereby research participants are equitably selected so that the benefits and burdens of the research are distributed fairly and without arbitrariness or discrimination. Sufficient safeguards to protect vulnerable groups should be ensured.

Principle of social responsibility whereby the research is planned and conducted so as to avoid creation or deepening of social and historic divisions or in any way disturb social harmony in community relationships.

Principle of ensuring privacy and confidentiality whereby to maintain privacy of the potential participant, her/his identity and records are kept confidential and access is limited to only those authorized. However, under certain circumstances (suicidal ideation, homicidal tendency, HIV positive status, when required by court of law etc.) privacy of the information can be breached in consultation with the EC for valid scientific or legal reasons as the right to life of an individual supersedes the right to privacy of the research participant.

Principle of risk minimization whereby due care is taken by all stakeholders (including but not limited to researchers, EC, sponsors, regulators) at all stages of the research to ensure that the risks are minimized and appropriate care and compensation is given if any harm occurs.

Principle of professional competence whereby the research is planned, conducted, evaluated and monitored throughout by persons who are competent and have the appropriate and relevant qualification, experience and/or training.

Principle of maximization of benefit whereby due care is taken to design and conduct the research in such a way as to directly or indirectly maximize the benefits to the research participants and/or to the society.

Principle of institutional arrangements whereby institutions where the research is being conducted, have policies for appropriate research governance and take the responsibility to facilitate research by providing required infrastructure, manpower, funds and training opportunities.

Principle of transparency and accountability whereby the research plan and outcomes emanating from the research are brought into the public domain through registries, reports and scientific and other publications while safeguarding the right to privacy of the participants. Stakeholders involved in research should disclose any existing conflict of interest and manage it appropriately. The research should be conducted in a fair, honest, impartial and transparent manner to guarantee accountability. Related records, data and notes should be retained for the required period for possible external scrutiny/ audit.

Principle of totality of responsibility whereby all stakeholders involved in research are responsible for their actions. The professional, social and moral responsibilities compliant with ethical guidelines and related regulations are binding on all stakeholders directly or indirectly.

Principle of environmental protection whereby researchers are accountable for ensuring protection of the environment and resources at all stages of the research, in compliance with existing guidelines and regulations.

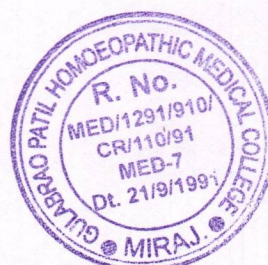

ETHICAL APPROVAL

As per Indian Council of Medical Research (ICMR), an EC can give one of the following decision-

- Approved – with or without suggestions or comments;
- Revision with minor modifications/amendments – approval is given after examination by the Member Secretary or expedited review, as the case may be
- Revision with major modifications for re submission – this will be placed before the full committee for reconsideration for approval; or
- Not approved (or termination/revoking of permission if applicable) – clearly defined reasons must be given for not approving/terminating/revoking of permission.

COMPLIANCE REGARDING STANDARDS AND PROCEDURES OF RESEARCH

Gulabrao Patil Homoeopathic Medical College, Miraj is committed to promote & ensure high standard of honesty & transparency while conducting all the Research in Homoeopathy which includes various projects, assignments & Research work of our students & faculty members funded by Central Council Of Research In Homoeopathy (CCRH), AYUSH, Collaborative & also other similar funding agencies.

MANAGING VARIOUS RESEARCH PROJECTS

All the Researchers should be familiarize themselves with the various terms and conditions also Norms and Guidelines of Indian Council of Medical Research (ICMR) and Central Council Of Research In Homoeopathy (CCRH) while conducting various Research Projects.

MENTORING AND SUPERVISION FOR RESEARCH PROJECTS -

Principal investigators, supervisors and Guide must mentor their team members and provide specific guidance to them. Every Researcher must ensure that all the persons involved in the conduct of research are adequately trained and perform their responsibilities competently.

HONESTY -

Every Researcher must ensure that all the data obtained from research is correct and exactly accurate. For variations the researcher must take appropriate steps to correct or retract the information in all outlets where it has appeared. Researchers must avoid any bias in interpreting results.

CONFLICT OF INTEREST

As per Indian Council of Medical Research (ICMR) Conflict of interest (COI) is a set of conditions where professional judgement concerning a primary interest such as participants welfare or the validity of research tends to be unduly influenced by a secondary interest, financial or non-financial (personal, academic or political). COI can be at the level of researchers, EC members, institutions or sponsors.

If COI is inherent in the research, it is important to declare this at the outset and establish appropriate mechanisms to manage it.

INFORMED CONSENT

As per Indian Council of Medical Research (ICMR) Informed consent protects the individual's autonomy to freely choose whether or not to participate in the research. The process involves three components – providing relevant information to potential participants, ensuring the information is comprehended by them and assuring voluntaries of participation.

Informed consent should explain medical terminology in simple terms and be in a language that the participant understands. The informed consent process ensures that participants' rights are safeguarded.

DATA MANAGEMENT

All Researchers must have to keep clear and accurate records of research procedures results obtained throughout their work, including interim results. Data generated in the course of research work must be kept in proper format specifically in electronic formats.

PUBLICATION PRACTICE

All the publications must be through peer-reviewed journals, books, presentations, or other suitable media platforms.

RESEARCH MISCONDUCT

As per ICMR, research misconduct involves fabrication, falsification and plagiarism of data which are serious issues both nationally and internationally.

Research misconduct, if suspected, needs to be investigated. An institution must investigate all allegations of misconduct, as present or future participant's lives may be endangered if facts are not presented accurately. Such investigations must be

done in a timely, fair and transparent manner and the results should be made available in the public domain.

It is important to establish institutional mechanisms for protection of both the whistle blower and the person accused of research misconduct. This information must be kept confidential.

Plagiarism

Plagiarism Is one of the Research misconduct.

Plagiarism is the “wrongful appropriation” and “stealing and publication” of another paper or another author’s “language, thoughts, ideas, or expressions” and the representation of them as one’s own original work or duplicating one’s own publication (self plagiarism).

Code of Ethics

The Institution ensures implementation of its stated Code of Ethics for research.

Vision-

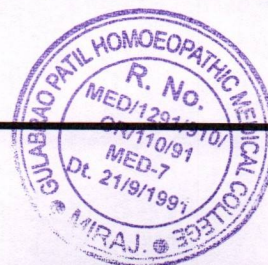

To provide value based Research in Homoeopathy, to establish effective & safety of specific health.

To provide value based Clinical Research of medical education aimed by training Homoeopaths to make them capable for treating patients with dedication & there by to propagate Homoeopathy as safe scientific economic & effective system for building healthy society/ community.

Mission-

- 1 To establish an institute of excellence in Research & education in Homoeopathy.
- 2 To set-up an Research oriented excellent Homoeopathic institute for the propagation of Homoeopathy among masses.
- 3 To mould newly budding Homoeopaths in patient care, education, Research & social awareness in Homoeopathy.
- 4 To ensure the publication & dissemination of results of high quality Research.
- 5 To inculcate innovative ideas for the promotion of higher standards of education & Research in the field of Homoeopathy.

Our institute is committed to promote & ensure high standard of honesty & transparency in conduct of all Research endeavors in Homoeopathy which include projects, assignments & Research work of students & faculty members funded by

Central Council Of Research In Homoeopathy (CCRH), AYUSH, Collaborative & other similar funding agencies.

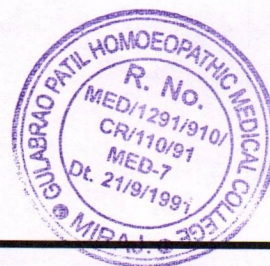

To ensure ethics in human Research, the instruction has constituted an ethical committee as per the guidelines of Indian Council of Medical Research (ICMR). We are also committed to maintain the proper IPR following guidelines of Indian Council of Medical Research (ICMR) under the heading of IPR manual 2017.

The aim of the institute is to promote our institute into a center of excellence for Research in Homoeopathy.

Hence, the institute has formed guidelines & Code of ethics for Research as follows:

1. Before commencement of Research work/project clearance is must from **Institutional Ethical Committee.**
2. Research work in form of paper/ projects done by the faculty members / students should go through the process of plagiarism & the plagiarism report should be produced **in front** of the **Institutional ethical committee.**
3. Proper **citation & acknowledgement** must be provided when the original work or contents or references are copied from other sources.
4. All form of Research work done in institution by faculty members & students should be **monitored by the team of experts to ensure originality.**
5. Code of ethics to check **plagiarism** should be done by the Researcher
6. Code of ethics should be strictly followed / imposed to avoid plagiarism & malpractice in order to ensure honesty & transparency in all Research activities including projects & dissertations.

Principle of social responsibility whereby the research is planned and conducted so as to avoid creation or deepening of social and historic divisions or in any way disturb social harmony in community relationships.

Principle of ensuring privacy and confidentiality whereby to maintain privacy of the potential participant, her/his identity and records are kept confidential and access is limited to only those authorized. However, under certain circumstances (suicidal ideation, homicidal tendency, HIV positive status, when required by court of law etc.) privacy of the information can be breached in consultation with the EC for valid scientific or legal reasons as the right to life of an individual supersedes the right to privacy of the research participant.

Recognised by Govt. of Maharashtra, Approved by National Commission for Homoeopathy & AYUSH New Delhi, Affiliated to Maharashtra University of Health Sciences, Nashik.

**GPMT SCHOOL of
HOMOEOPATHY**

Gulabrao Patil Homoeopathic Medical College & Hospital

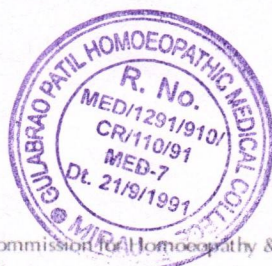

Principle of risk minimization whereby due care is taken by all stakeholders (including but not limited to researchers, EC, sponsors, regulators) at all stages of the research to ensure that the risks are minimized and appropriate care and compensation is given if any harm occurs.

Principle of professional competence whereby the research is planned, conducted, evaluated and monitored throughout by persons who are competent and have the appropriate and relevant qualification, experience and/or training.

Principle of maximization of benefit whereby due care is taken to design and conduct the research in such a way as to directly or indirectly maximize the benefits to the research participants and/or to the society.

Principle of institutional arrangements whereby institutions where the research is being conducted, have policies for appropriate research governance and take the responsibility to facilitate research by providing required infrastructure, manpower, funds and training opportunities.

Principle of transparency and accountability whereby the research plan and outcomes emanating from the research are brought into the public domain through registries, reports and scientific and other publications while safeguarding the right to privacy of the participants. Stakeholders involved in research should disclose any existing conflict of interest and manage it appropriately. The research should be conducted in a fair, honest, impartial and transparent manner to guarantee accountability. Related records, data and notes should be retained for the required period for possible external scrutiny/ audit.

Recognised by Govt. of Maharashtra, Approved by National Commission for Homoeopathy & AYUSH New Delhi, Affiliated to Maharashtra University of Health Sciences, Nashik.

Principle of totality of responsibility whereby all stakeholders involved in research are responsible for their actions. The professional, social and moral responsibilities compliant with ethical guidelines and related regulations are binding on all stakeholders directly or indirectly.

Principle of environmental protection whereby researchers are accountable for ensuring protection of the environment and resources at all stages of the research, in compliance with existing guidelines and regulations.

ETHICAL APPROVAL

As per Indian Council of Medical Research (ICMR), an EC can give one of the following decision-

- Approved – with or without suggestions or comments;
- Revision with minor modifications/amendments – approval is given after examination by the Member Secretary or expedited review, as the case may be
- Revision with major modifications for re submission – this will be placed before the full committee for reconsideration for approval; or
- Not approved (or termination/revoking of permission if applicable) – clearly defined reasons must be given for not approving/terminating/revoking of permission.

COMPLIANCE REGARDING STANDARDS AND PROCEDURES OF RESEARCH

Gulabrao Patil Homoeopathic Medical College, Miraj is committed to promote & ensure high standard of honesty & transparency while conducting all the Research in Homoeopathy which includes various projects, assignments & Research work of our students & faculty members funded by Central Council Of Research In Homoeopathy (CCRH), AYUSH, Collaborative & also other similar funding agencies.

**GPMT SCHOOL of
HOMOEOPATHY**

Gulabrao Patil Homoeopathic Medical College & Hospital

MANAGING VARIOUS RESEARCH PROJECTS

All the Researchers should be familiarize themselves with the various terms and conditions also Norms and Guidelines of ICMR and CCRH while conducting various Research Projects.

MENTORING AND SUPERVISION FOR RESEARCH PROJECTS -

Principal investigators, supervisors and Guide must mentor their team members and provide specific guidance to them. Every Researcher must ensure that all the persons involved in the conduct of research are adequately trained and perform their responsibilities competently.

HONESTY -

Every Researcher must ensure that all the data obtained from research is correct and exactly accurate. For variations the researcher must take appropriate steps to correct or retract the information in all outlets where it has appeared. Researchers must avoid any bias in interpreting results.

CONFLICT OF INTEREST

As per ICMR Conflict of interest (COI) is a set of conditions where professional judgement concerning a primary interest such as participants welfare or the validity of research tends to be unduly influenced by a secondary interest, financial or non-financial (personal, academic or political). COI can be at the level of researchers, EC members, institutions or sponsors. If COI is inherent in the research, it is important to declare this at the outset and establish appropriate mechanisms to manage it.

INFORMED CONSENT

As per ICMR Informed consent protects the individual's autonomy to freely choose whether or not to participate in the research. The process involves three components – providing relevant information to potential participants, ensuring the information is comprehended by them and assuring voluntaries of participation.

Informed consent should explain medical terminology in simple terms and be in a language that the participant understands. The informed consent process ensures that participants' rights are safeguarded.

Recognised by Govt. of Maharashtra, Approved by National Commission for Homoeopathy & AYUSH New Delhi, Affiliated to Maharashtra University of Health Sciences, Nashik.

DATA MANAGEMENT

All Researchers must have to keep clear and accurate records of research procedures results obtained throughout their work, including interim results. Data generated in the course of research work must be kept in proper format specifically in electronic formats.

PUBLICATION PRACTICE

All the publications must be through peer-reviewed journals, books, presentations, or other suitable media platforms .

RESEARCH MISCONDUCT

As per ICMR, research misconduct involves fabrication, falsification and plagiarism of data which are serious issues both nationally and internationally.

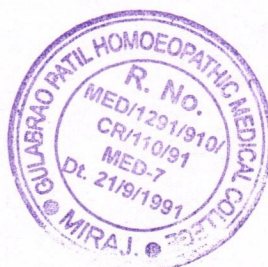

Research misconduct, if suspected, needs to be investigated. An institution must investigate all allegations of misconduct, as present or future participant's lives may be endangered if facts are not presented accurately. Such investigations must be done in a timely, fair and transparent manner and the results should be made available in the public domain.

It is important to establish institutional mechanisms for protection of both the whistle blower and the person accused of research misconduct. This information must be kept confidential.

Plagiarism

Plagiarism Is one of the Research misconduct

Plagiarism is the "wrongful appropriation" and "stealing and publication" of another paper or another author's "language, thoughts, ideas, or expressions" and the representation of them as one's own original work or duplicating one's own publication (self plagiarism).

Institutional Ethical Committee

To ensure ethics in human Research, the instruction has constituted an ethical committee as per the guidelines of ICMR. We are also committed to maintain the proper Intellectual Property Rights (IPR) following guidelines of ICMR under the heading of IPR manual 2017.

The aim of the institute is to promote our institute into a center of excellence for Research in Homoeopathy.

Hence, the institute has formed guidelines & Code of ethics for Research as follows:

1. Before commencement of Research work/project clearance is must from Institutional Ethical Committee. [Synonyms of commencement : Beginning, start, opening, induct, instate, admit].
2. Research work in form of paper/ projects done by the faculty members / students should go through the process of plagiarism & the plagiarism report should be produced in front of the Institutional ethical committee.
3. Proper citation & acknowledgement must be provided when the original work or contents or references are copied from other sources.
4. All form of Research & dissertation work done in institution by faculty members & students should be monitored by the team of experts to ensure originality.
5. Code of ethics to check plagiarism is implemented by conducting regular review meeting.
6. Code of ethics should be strictly followed / imposed to avoid plagiarism & malpractice in order to ensure honesty & transparency in all Research activities including projects & dissertations .

3	Aims	4
4	Research support by GPHMC Miraj	5
5	Norms and Guidelines	6
6	Research committee	13
7	Institutional ethical committee (May 2022)	14
8	Research advisory/ Doctoral committee (2023-24)	15
9	Code of Ethics	16

Background

Our GPHMC Institute has established Research & Development policy under Research committee (2021), Institutional ethical committee (May 2022) and Research advisory/ Doctoral committee (2023-24)

Preamble

Research and development is fundamentally about identifying a need or a problem, generating an idea or solution, converting that idea into a product or service, testing the product or service for efficacy, effectiveness and value, launching the product or service, continuing to monitor, evaluate and improve the product or service, and then finally sunsetting the product or service when it becomes obsolete.

Health research and development is really important to the health sector. It provides clinical practitioners and health system investors with innovation and associated evidence for prevention interventions, effective treatments and care pathways.

Aims

1. To set-up a Research oriented excellent Homoeopathic institute for the propagation of Homoeopathy among masses.
2. To promote Research with Innovation, Inter- connectivity of Teaching and Research and developing Innovative practices
3. To provide a conducive environment for the enhanced research productivity.
4. To encourage collaboration amongst various community based organizations, and agencies at the local, national, and international levels.
5. To develop Inter – disciplinary Research collaboration.
6. To facilitate greater access to research through mobilization of resources and funding.
7. To inculcate innovative ideas for the promotion of higher standards of education & Research in the field of Homoeopathy.
8. Understanding and Solving Social Problems through Extension and Engaging Innovative practice

Research support by Gulabrao Patil Homoeopathic Medical College (GPHMC) Miraj

Our institute is committed to promote & ensure high standard of honesty & transparency in conduct of all Research endeavors in Homoeopathy which include projects, assignments & Research work of students & faculty members funded by Central Council Of Research In Homoeopathy (CCRH), AYUSH, Collaborative & other similar funding agencies.

To ensure ethics in human Research, the instruction has constituted an ethical committee as per the guidelines of *Indian Council of Medical Research* (ICMR). We are also committed to maintain the proper IPR following guidelines of *Indian Council of Medical Research* (ICMR) under the heading of IPR manual 2017.

The aim of the institute is to promote our institute into a center of excellence for Research in Homoeopathy.

Norms and Guidelines for Research -

Principle of essentiality whereby after due consideration of all alternatives in the light of existing knowledge, the use of human participants is considered to be essential for the proposed research. This should be duly vetted by an ethics committee (EC) independent of the proposed research.

Principle of voluntaries whereby respect for the right of the participant to agree or not to agree to participate in research, or to withdraw from research at any time, is paramount. The informed consent process ensures that participants' rights are safeguarded.

Principle of non-exploitation whereby research participants are equitably selected so that the benefits and burdens of the research are distributed fairly and without arbitrariness or discrimination. Sufficient safeguards to protect vulnerable groups should be ensured.

Principle of social responsibility whereby the research is planned and conducted so as to avoid creation or deepening of social and historic divisions or in any way disturb social harmony in community relationships.

Principle of ensuring privacy and confidentiality whereby to maintain privacy of the potential participant, her/his identity and records are kept confidential and access is limited to only those authorized. However, under certain circumstances (suicidal ideation, homicidal tendency, HIV positive status, when required by court of law etc.) privacy of the information can be breached in consultation with the EC for valid scientific or legal reasons as the right to life of an individual supersedes the right to privacy of the research participant.

Principle of risk minimization whereby due care is taken by all stakeholders (including but not limited to researchers, EC, sponsors, regulators) at all stages of the research to ensure that the risks are minimized and appropriate care and compensation is given if any harm occurs.

Principle of professional competence whereby the research is planned, conducted, evaluated and monitored throughout by persons who are competent and have the appropriate and relevant qualification, experience and/or training.

Principle of maximization of benefit whereby due care is taken to design and conduct the research in such a way as to directly or indirectly maximize the benefits to the research participants and/or to the society.

Principle of institutional arrangements whereby institutions where the research is being conducted, have policies for appropriate research governance and take the responsibility to facilitate research by providing required infrastructure, manpower, funds and training opportunities.

Principle of transparency and accountability whereby the research plan and outcomes emanating from the research are brought into the public domain through registries, reports and scientific and other publications while safeguarding the right to privacy of the participants. Stakeholders involved in research should disclose any existing conflict of interest and manage it appropriately. The research should be conducted in a fair, honest, impartial and transparent manner to guarantee accountability. Related records, data and notes should be retained for the required period for possible external scrutiny/ audit.

Principle of totality of responsibility whereby all stakeholders involved in research are responsible for their actions. The professional, social and moral responsibilities compliant with ethical guidelines and related regulations are binding on all stakeholders directly or indirectly.

Principle of environmental protection whereby researchers are accountable for ensuring protection of the environment and resources at all stages of the research, in compliance with existing guidelines and regulations.

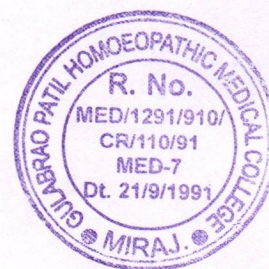

ETHICAL APPROVAL

As per Indian Council of Medical Research (ICMR), an EC can give one of the following decision-

- Approved – with or without suggestions or comments;
- Revision with minor modifications/amendments – approval is given after examination by the Member Secretary or expedited review, as the case may be
- Revision with major modifications for re submission – this will be placed before the full committee for reconsideration for approval; or
- Not approved (or termination/revoking of permission if applicable) – clearly defined reasons must be given for not approving/terminating/revoking of permission.

COMPLIANCE REGARDING STANDARDS AND PROCEDURES OF RESEARCH

Gulabrao Patil Homoeopathic Medical College, Miraj is committed to promote & ensure high standard of honesty & transparency while conducting all the Research in Homoeopathy which includes various projects, assignments & Research work of our students & faculty members funded by Central Council Of Research In Homoeopathy (CCRH), AYUSH, Collaborative & also other similar funding agencies.

MANAGING VARIOUS RESEARCH PROJECTS

All the Researchers should be familiarize themselves with the various terms and conditions also Norms and Guidelines of Indian Council of Medical Research (ICMR) and Central Council Of Research In Homoeopathy (CCRH) while conducting various Research Projects.

MENTORING AND SUPERVISION FOR RESEARCH PROJECTS -

Principal investigators, supervisors and Guide must mentor their team members and provide specific guidance to them. Every Researcher must ensure that all the persons involved in the conduct of research are adequately trained and perform their responsibilities competently.

HONESTY -

Every Researcher must ensure that all the data obtained from research is correct and exactly accurate. For variations the researcher must take appropriate steps to correct or retract the information in all outlets where it has appeared. Researchers must avoid any bias in interpreting results.

CONFLICT OF INTEREST

As per Indian Council of Medical Research (ICMR) Conflict of interest (COI) is a set of conditions where professional judgement concerning a primary interest such as participants welfare or the validity of research tends to be unduly influenced by a secondary interest, financial or non-financial (personal, academic or political). COI can be at the level of researchers, EC members, institutions or sponsors.

If COI is inherent in the research, it is important to declare this at the outset and establish appropriate mechanisms to manage it.

INFORMED CONSENT

As per Indian Council of Medical Research (ICMR) Informed consent protects the individual's autonomy to freely choose whether or not to participate in the research. The process involves three components – providing relevant information to potential participants, ensuring the information is comprehended by them and assuring voluntaries of participation.

Informed consent should explain medical terminology in simple terms and be in a language that the participant understands. The informed consent process ensures that participants' rights are safeguarded.

DATA MANAGEMENT

All Researchers must have to keep clear and accurate records of research procedures results obtained throughout their work, including interim results. Data generated in the course of research work must be kept in proper format specifically in electronic formats.

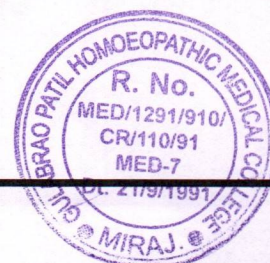

PUBLICATION PRACTICE

All the publications must be through peer-reviewed journals, books, presentations, or other suitable media platforms.

RESEARCH MISCONDUCT

As per ICMR, research misconduct involves fabrication, falsification and plagiarism of data which are serious issues both nationally and internationally.

Research misconduct, if suspected, needs to be investigated. An institution must investigate all allegations of misconduct, as present or future participant's lives may be endangered if facts are not presented accurately. Such investigations must be

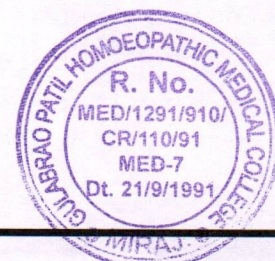

done in a timely, fair and transparent manner and the results should be made available in the public domain.

It is important to establish institutional mechanisms for protection of both the whistle blower and the person accused of research misconduct. This information must be kept confidential.

Plagiarism

Plagiarism Is one of the Research misconduct.

Plagiarism is the “wrongful appropriation” and “stealing and publication” of another paper or another author’s “language, thoughts, ideas, or expressions” and the representation of them as one’s own original work or duplicating one’s own publication (self plagiarism).

Code of Ethics

The Institution ensures implementation of its stated Code of Ethics for research.

Vision-

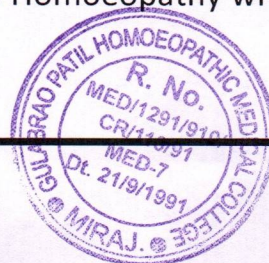

To provide value based Research in Homoeopathy, to establish effective & safety of specific health.

To provide value based Clinical Research of medical education aimed by training Homoeopaths to make them capable for treating patients with dedication & there by to propagate Homoeopathy as safe scientific economic & effective system for building healthy society/ community.

Mission-

- 1 To establish an institute of excellence in Research & education in Homoeopathy.
- 2 To set-up an Research oriented excellent Homoeopathic institute for the propagation of Homoeopathy among masses.
- 3 To mould newly budding Homoeopaths in patient care, education, Research & social awareness in Homoeopathy.
- 4 To ensure the publication & dissemination of results of high quality Research.
- 5 To inculcate innovative ideas for the promotion of higher standards of education & Research in the field of Homoeopathy.

Our institute is committed to promote & ensure high standard of honesty & transparency in conduct of all Research endeavors in Homoeopathy which include

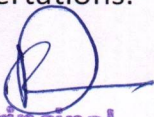

projects, assignments & Research work of students & faculty members funded by Central Council Of Research In Homoeopathy (CCRH), AYUSH, Collaborative & other similar funding agencies.

To ensure ethics in human Research, the instruction has constituted an ethical committee as per the guidelines of Indian Council of Medical Research (ICMR). We are also committed to maintain the proper IPR following guidelines of Indian Council of Medical Research (ICMR) under the heading of IPR manual 2017.

The aim of the institute is to promote our institute into a center of excellence for Research in Homoeopathy.

Hence, the institute has formed guidelines & Code of ethics for Research as follows:

1. Before commencement of Research work/project clearance is must from **Institutional Ethical Committee.**
2. Research work in form of paper/ projects done by the faculty members / students should go through the process of plagiarism & the plagiarism report should be produced **in front** of the **Institutional ethical committee.**
3. Proper **citation & acknowledgement** must be provided when the original work or contents or references are copied from other sources.
4. All form of Research work done in institution by faculty members & students should be **monitored by the team of experts to ensure originality.**
5. Code of ethics to check **plagiarism** should be done by the Researcher
6. Code of ethics should be strictly followed / imposed to avoid plagiarism & malpractice in order to ensure honesty & transparency in all Research activities including projects & dissertations.

QUALITY CONTROL ON HOMOEOPATHIC DRUGS

DATE & DAY: 11 AUGUST 2018 SATURDAY

TIME: 1.00 PM TO 3.00PM

RESOURCE PERSON: DR PRIYA BHAGAT

TOPIC: QUALITY CONTROL ON HOMOEOPATHIC DRUGS

VENUE: CENTRAL LIBRARY.

NUMBER OF PARTICIPANTS: 73

ORGANISED BY: COMMUNITY MEDICINE DEPARTMENT.

OBJECTIVE:

- The Finished product must comply with quality specification in Homoeopathic pharmacopeia of India (H.P.I).
- Contain correct ingredients in correct proportions.
- Is Of the required purity.
- Has been correctly manufactured as specified in different pharmacopeias.

SUMMARY:

1. Quality control should not only be tested at the end but must be carried out from the moments of receipt of raw materials, right through process of manufacturing till the final packaging.
2. Quality control is the process of standardization.
It means the medicines or drugs prepared or made to confirm some standard prescribed by the official pharmacopeia.
3. Various guide lines are given in H.P.I from picking up raw materials, storage, preparation, documentation, distribution.

Date: WORKSHOP ON DISSERTATION WRITING FOR UG.

DATE & DAY: 06 SEPTEMBER 2018 THURSDAY

TIME: 12.00 PM TO 2.00 PM NOON

RESOURCE PERSON: DR ARCHANA PATIL

TOPIC: WORKSHOP ON DISSERTATION WRITING FOR UG.

VENUE: CENTRAL LIBRARY

NUMBER OF PARTICIPANTS: 189

ORGANISED BY: COMMUNITY MEDICINE DEPARTMENT.

OBJECTIVES: To provide knowledge of dissertation writing with step by step understanding along with common dissertation mistakes.

SUMMARY:

Workshop on UG dissertation writing was conducted and explained the importance of formulating title, purpose of study, content, conclusion was worked on. Any abbreviation and initials to main body of dissertation must be avoided. Preparation of review of literature, framing objectives and bibliography construction was discussed. Guidance regarding to avoid straying from the topic was worked on.

Students were made aware regarding failing to develop a clear thesis statement, ineffective organization and structure, lack of clarity and conciseness, failure to follow citation guidelines, and neglecting the revision process are common writing mistakes that students were made aware of.

Discussion was done regarding common dissertation mistakes like typos, grammatical mistakes, referencing etc.

DRUG PROVING PROTOCOL

DATE & DAY: 27 NOVEMBER 2018 TUESDAY.

TIME: 1.00 PM TO 3.00 PM

RESOURCE PERSON: DR. PADMAVATI KUMBHAR.

TOPIC: DRUG PROVING PROTOCOL

VENUE: CENTRAL LIBRARY

NUMBER OF PARTICIPANTS: 189

ORGANISED BY: DEPARTMENT OF HOMOEOPATHIC PHARMACY.

OBJECTIVE:

1. To know the Pathogenetic effects of drugs.
2. To observe and record the subjective symptoms and changes in the appearance of surface / physiological function.
3. To know the characteristics of drugs.

SUMMARY: Drug proving is important corner stone in Homoeopathy. Without proving similia principle hardly exist. It is the link between research and ultimately with the patient. Drug proving clarify the exact mechanism and site of action of potencies too. Therefore for Homoeopathic development it is an important link.

Recognized by Govt. of Maharashtra, Council of Homoeopathy New Delhi, Affiliated to Maharashtra University of Health Sciences, Nashik.

SEMINAR ON BIOMEDICINE AND HOLISTIC MEDICINE

DATE & DAY: 08 AUGUST 2022 MONDAY

TIME: 1.00PM TO 2.50PM

RESOURCE PERSON: DR GULNAR BAGWAN

TOPIC: SEMINAR ON BIOMEDICINE AND HOLISTIC MEDICINE.

VENUE: FOURTH YEAR BHMS CLASS ROOM GPHMC, MIRAJ

NUMBER OF PARTICIPANTS: 108

ORGANISED BY: COMMUNITY MEDICINE DEPARTMENT

OBJECTVES: To describe in detail regarding biomedicine and holistic medicine along with homoeopathy as a holistic science.

SUMMARY:

Seminar on Biomedicine and Holistic Medicine was conducted by Dr Gulnar Bagwan. She explained how biomedicine is focused on treating diseases at population level and Holistic healthcare treats the whole person and not only treating the physical self, but also the emotional, spiritual, and mental facets. Whereas conventional western medicine seeks to provide for pain or the ailment holistic healthcare focuses on both treatment and prevention. She also emphasised on Homoeopathy as a holistic healthcare. Seminar on Holistic healthcare and Biomedicine was taken. Holistic medicine that treats the whole person not just treating physical self but also emotional, spiritual, and mental facets was explained. Whereas provide treatment for pain or the ailment, holistic healthcare focuses in both treatment and prevention. The application of biomedicine has helped create new types of equipment used for diagnosis, treatment, and patient monitoring was discussed. At last, in seminar, it was explained that the biomedicine as a branch of medicine that is combined with research in biology.

WRITING RESEARCH PROPOSAL FOR EXTERNAL FUNDING

DATE & DAY: 15 OCTOBER 2022 SATURDAY

TIME: 12.00 PM TO 2.00 PM

RESOURCE PERSON: Dr Vaibhav Avinash Patil.

TOPIC: WRITING RESEARCH PROPOSAL FOR EXTERNAL FUNDING.

VENUE: 1stYear Class Room.

NUMBER OF PARTICIPANTS: 92

ORGANISED BY: Community Medicine Department.

OBJECTIVES :

1. To provide step by step guidance for the planning and writing project proposal.
2. To study various project writing techniques for external funding.

SUMMARY: The purpose was to introduce a step by se guide to planning and writing project proposal incorporating project management techniques for external funding. To contextualise the various step and procedures. This serves two purposes; it provides to prepare a written report for competitive grant and also for planning an analytical study. If the writing of the proposal is up to the mark sanctioning of external funding is easy.

SEMINAR ON PHARMACOGNOSY AND STANDARDISATION OF HOMOEOPATHIC DRUGS

DATE & DAY: 15 NOVEMBER 2022 TUESDAY

TIME: 9.00AM TO 11.00AM

RESOURCE PERSON: DR PRAVIN VADGAVE

TOPIC: SEMINAR ON PHARMACOGNOSY AND STANDARDISATION OF HOMOEOPATHIC DRUGS

VENUE: FIRST YEAR CLASS ROOM

NUMBER OF PARTICIPANTS: 70

ORGANISED BY: DEPARTMENT OF HOMOEOPATHIC PHARMACY

OBJECTIVE:

- 1) To study each remedy from different source books and there material, collection, utility.
- 2) Application of this knowledge to heal patient.

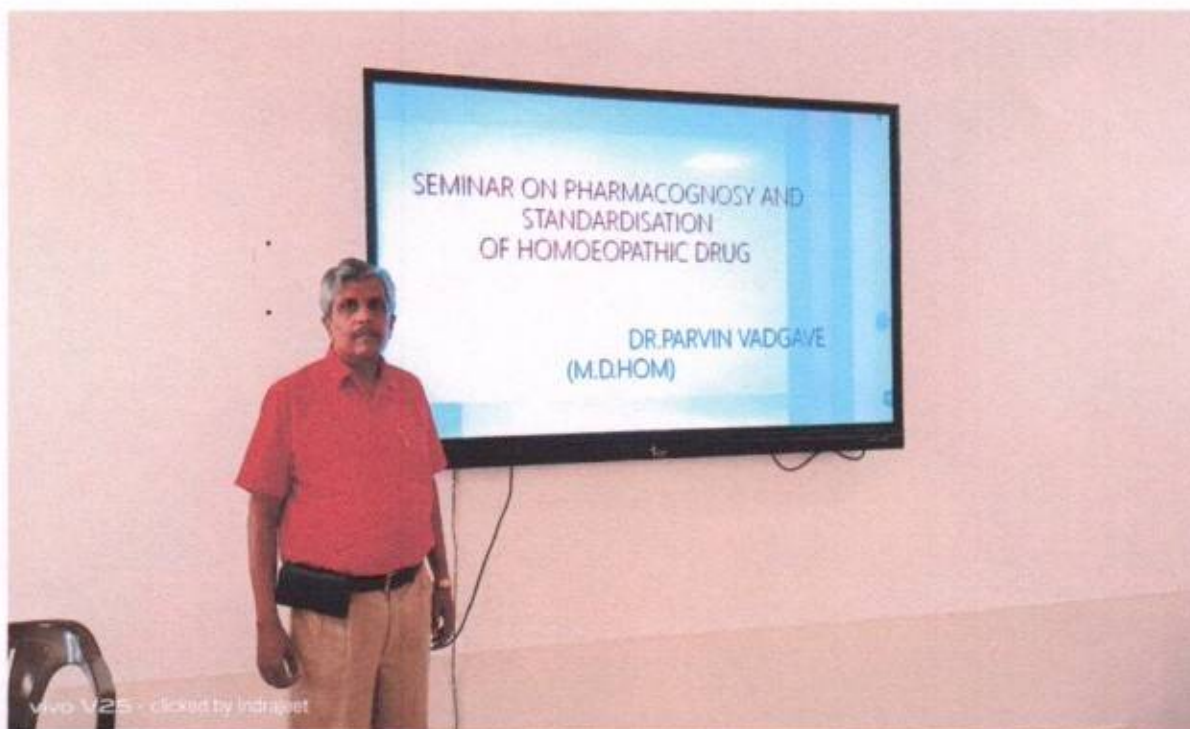

SUMMARY:

The seminar conducted elaborated upon importance of standardization of Homeopathic medicines. Homeopathic medicines must follow standards by HPI. The medicines must be prepared as per GMP guidelines. Pharmacognosy deals with source, cultivation, collection, preparation, distribution, identification, composition and preservation of crude drugs of vegetable and animal origin.

Awareness was created to study each remedy from different source books and there material, collection, utility so as to apply this knowledge to heal patient. Also emphasis was given on dynamization of drugs should be as per rules and regulations in pharmacopeia.

SEMINAR ON NEEDS AND AWARENESS OF INTELLECTUAL PROPERTY RIGHTS

DATE& DAY: 10 MARCH 2023 FRIDAY

TIME: 10 AM TO 12 NOON

RESOURCE PERSON: SACHIN LOKAPURE

TOPIC: SEMINAR ON NEEDS AND AWARENESS OF INTELLECTUAL PROPERTY RIGHTS

VENUE: FINAL YEAR CLASS ROOM

NUMBER OF PARTICIPANTS: 56

**ORGANISED BY: GULABRAO PATIL HOMOEOPATHIC MEDICAL COLLEGE,
MIRAJ.**

OBJECTIVE : To create awareness regarding IPR copyright patent issue, IPR protection , identification, patenting tools, procedures etc.

SUMMARY:

It created great awareness among students, research scholars and faculty of Gulabrao Patil Homoeopathic Medical college, Miraj about the important concepts related to IPR copyright and patent issues. The Programme included discussion on the importance of IPR, their protections and an overview on copyright systems in India, identification of IP, patenting tools, procedures, etc.

Seminar detailed on GCP as that incorporated established ethical and scientific quality standards for the design, conduct, recording and reporting of clinical (research) trials involving the participation of human subjects. GCP aims to ensure that the students are scientifically authentic and comprehensively documentation for the clinical protocol and record keeping training and facilities including computer and software. GCP includes protection of human rights for subjects and volunteers in clinical trial.

APPLICATION ATTESTATION FORM (AAF) STSH 2022

Name of the Student: ANAM RAFIQUE SHAIKH
Name of the Guide: DR. USHA GURMUKHDAS CHAWLA
Name of Medical College: GULABRAO PATIL HOMOEOPATHIC
MEDICAL COLLEGE, MIRAJ - 416410
Title of the STSH Proposal: RETROSPECTIVE OBSERVATIONAL
STUDY FOR ASSESSMENT OF RELATIONSHIP
BETWEEN STRESS AND HOMOEOPATHIC MANAGEMENT
IN CASES OF PRIMARY INFERTILITY

Certificate to be signed by the Student

I certify that the information provided by me in the online application form for STSH 2022 is best to my knowledge and I am submitting only one application for STSH 2022. In the event any information is found to be false, my studentship may be cancelled. I also certify that the research proposal is an original work prepared under the guidance of my Guide. I understand that after evaluation of my proposal, I may or may not be selected and I shall abide by the decision of CCRH.

If selected, I shall follow all instructions for carrying out the research, preparation and submission of STSH report. I also understand that if I am unable to complete my project & submit the report before the last date, no certificate or stipend will be awarded to me. I have gone through all the Instructions and Terms & Conditions for STSH 2022

Signature of Student:

Name of the Student: ANAM R
SHAIKH

Date: 30/8/22

Certificate to be signed by the Guide

I agree to accept the applicant ~~Mr~~/Ms. ANAM RAFIQUE SHAIKH studying in BHMS-VI/II/III/IV. I certify that he/she is not an intern and will offer him/her all facilities and guidance for carrying out research. I also certify that the proposal is an original submission prepared by the student under my guidance. I am forwarding only one STSH 2022 student application. If my student is selected, I shall facilitate early completion of research work in any two given months, so that the report is submitted before the last date.

TITLE:

**RETROSPECTIVE OBSERVATIONAL STUDY FOR
ASSESSMENT OF RELATIONSHIP BETWEEN STRESS AND
HOMOEOPATHIC MANAGEMENT IN CASES OF PRIMARY
INFERTILITY.**

INTRODUCTION:

- **Research Questions:**

1. Which are the stresses commonly seen in primary infertility?
2. What is role of Homoeopathic constitutional medicine in primary infertility?
3. How do couples deal this stigma with routine work along with society norms?

- **Background:**

Infertility often a silent struggle. The relationship between stress & infertility debated for many years it has been hypothesized since biblical times that stress can hamper fertility this raises one of the most compelling Mind/Body questions: Does infertility cause stress or stress cause infertility? thus answer was not clear that the relationship between stress & infertility may not have clear cause & effect direction (4).

Primary infertility defined as inability to conceive in a couple who have had no previous pregnancies (1). it is estimated that 1 in 8 couples have trouble getting pregnant, despite the prevalence of infertility, most infertile woman does not share their story also pretend to be "Fake good" attitude. It has been seen and proved that children bring about ultra-changes in any household to the parent (4).

Fertility is the major milestone in human's life. It is the ability of human being to reproduce and continue their progeny, but when it doesn't happen it become a problem for family and couple it brings lots of pressure and insecurity on couples also suffering from shame, guilt & low esteem these negative feelings leads to varying degree of depression, anxiety, distress & poor quality of life them and it became mystery to them.

In previous studies on 501 women in united states high levels of salivary alpha amylase an enzyme that marks stress took 29% long to pregnant compared to those who had less. (5)

	<p>All couples experience stress it may be:</p> <ol style="list-style-type: none"> 1. Interpersonal Relationship with husband/wife, In-laws /Maiden family. 2. Interpersonal Relationship at work place.
OBJECTIVES	<ul style="list-style-type: none"> • To study expression of stress in primary infertility couples. • To study expression of mental & physical symptoms in primary infertility. • To study changes in subjective & objective symptoms after giving constitutional remedy. • To study the efficacy of homoeopathic medicine in primary infertility.
METHODOLOGY:	<p>Hypothesis:</p> <ul style="list-style-type: none"> • Homoeopathic constitutional medicine shows significant change by reducing stress while treating primary infertility. <p>Study settings:</p> <ul style="list-style-type: none"> • Cases taken from OPD of the institute or cases from other OPD' may be selected. <p>Selection of Sample:</p> <ul style="list-style-type: none"> • 30 cases i.e. 15 couples will be enrolled for the study. <p>Inclusion criteria:</p> <ul style="list-style-type: none"> • All cases of primary infertility • Patients of age above 18 to 35 years of both sexes. • All type of Socio-Economic status patient. • Patients who had Interpersonal Relationship problem with husband/wife, In-laws /Maiden family and at work place. <p>Exclusion criteria:</p> <ul style="list-style-type: none"> • Patients suffering from auto immune disease. • Married couples suffering from koch's , HIV diseases. • Couple not able to follow treatment on regular basis i.e. Can't come follow- up once in a 4 week. <p>Study Duration –</p>

- 3 months for data collection and 3 months for writing report.

Study design

- Retrospective case series Design. Simple random method will be employed for drawing samples from eligible infertility patients.

Selection of tool –

- LSMC, Symptoms classification form, Life Space Table and Remedy response evaluation form.

Brief of procedure –

- Randomly selection of cases of primary infertility.
- All 30 cases are already defined
- Assessment of each case, which type of interpersonal relationship problem will they underwent.
- Study of mental symptoms & their relation with physical general level.
- study of Physical or clinical conditions relation with mental symptoms.
- Assessment of qualified mental symptoms found in patient's life space & subsequent follow ups.
- Assessment of the physical general symptoms or clinical conditions & mental symptoms after giving constitutional remedy in each follow ups.

Outcome Assessment Criteria:

- In each case of conception is considered as most successful cases.
- The cases have other complaints along with infertility, the results obtained in reliving those complaints will be considered as moderate response.
- Rest of the cases in which above results are not seen, all those will be considered as no response.
- These responses will be evaluated with the mental qualified & physical symptoms.

Data collection:

- Each case will be studies in detail regard to the chief

complaint with the help of LSMC & life situation.

- Understanding / interpretation of stress factor or other causes responsible for primary infertility.
- After getting all symptoms, symptom analysis will be done.
- Based on available symptomatology similimum will be selected.
- Follow ups will be studied for assessing the results.

Statistically Technique –

- Data generated will be qualitative type. Frequency table & percentage will be calculated by using mode.

Data Analysis –

- Data would be analysed by how couple has been dealing with infertility.
- Data would be analysed for stress related symptoms as above mentioned.
- This study will also give some idea role of constitutional remedy & role of counselling this must be taken up as an independent study later.

Does the Study Required Any Investigation or Intervention to Be Conducted on Patients or Other Humans or Animals? If So, Please Describe Briefly: YES,

- Investigations will be required for diagnosing the cases. Cases in which all the investigations are done recently then they will not be repeated.

Has ethical clearance been obtained from your institution:
NO

Expected Outcome & Its Usefulness

- This study will help in understanding the individualistic response of a couple having infertility. After study in detail each case this study helps in knowing how stress can affect infertility & its correlation with infertility.
- This study will help in understanding the individualistic response of a couple having problem of infertility. After studying in detail each case, this study will identify stresses

	<p>and stress related symptoms. Also, it can help to identify the correlation between mental & physical symptoms.</p> <ul style="list-style-type: none"> • The study will highlight the homoeopathic constitutional remedy will help at mental, physical or both the level.
IMPLICATIONS	<p>Relationship between stress & infertility was not that much explored in homoeopathy but in one of study found mental factor plays important cause for the infertility & psychosomatic correlation has been established. (3) so, need for study the correlation between stress & infertility</p> <p>Now a day there are lots of issues while adjustment for couple in work place and in joint Indian family (due to value norms, customs & orthodox mentality). This can be leading cause of interpersonal issues that can affect mental health. So, we can assess homoeopathic management will help in primary infertility at mental & physical level.</p>

APPLICATION ATTESTATION FORM (AAF) STSH 2022

Name of the Student: TEKE SHRUTIKA SACHIN
 Name of the Guide: DR. PRATAP L. BHOSALE
 Name of Medical College: GULABRAO PATIL HOMOEOPATHIC MEDICAL COLLEGE, MIRAJ
 Title of the STSH Proposal: EFFICACY OF CONSTITUTIONAL AND SPECIFIC HOMOEOPATHIC REMEDIES ON THE MANAGEMENT OF ACNE VULGARIS IN PUBERTY OF FEMALES

Certificate to be signed by the Student

I certify that the information provided by me in the online application form for STSH 2022 is best to my knowledge and I am submitting only one application for STSH 2022. In the event any information is found to be false, my studentship may be cancelled. I also certify that the research proposal is an original work prepared under the guidance of my Guide. I understand that after evaluation of my proposal, I may or may not be selected and I shall abide by the decision of CCRH.

If selected, I shall follow all instructions for carrying out the research, preparation and submission of STSH report. I also understand that if I am unable to complete my project & submit the report before the last date, no certificate or stipend will be awarded to me. I have gone through all the Instructions and Terms & Conditions for STSH 2022.

Signature of Student: Teke

Name of the Student: TEKE SHRUTIKA SACHIN

Date: 30/8/2022

Certificate to be signed by the Guide

I agree to accept the application of Mr/Ms. TEKE SHRUTIKA SACHIN studying in BHMS-II/III/IV. I certify that ~~he~~ she is not an intern and will offer him/her all facilities and guidance for carrying out research. I also certify that the proposal is an original submission prepared by the student under my guidance. I am forwarding only one STSH 2022 student application. If my student is selected, I shall facilitate early completion of research work in any two given months, so that the report is submitted before the last date.

Title of the topic	EFFICACY OF COSTITUTIONAL AND SPECIFIC HOMOEOPATHIC REMEDIES IN THE MANAGEMENT OF ACNE VULGARIS IN PUBERTY OF FEMALES.
Introduction -	<p>Research Questions –</p> <ol style="list-style-type: none"> 1. What is the role of homoeopathic constitutional remedies in the curing of acne vulgaris? 2. What is the role of homoeopathic specific remedies in the curing of acne vulgaris? 3. What is the pathophysiology and epidemiology of acne vulgaris? 4. What is the conclusion of comparative study of homoeopathic constitutional and specific remedies? <p>Background –</p> <p>Acne vulgaris (acne – scar, pimple; vulgaris – common)</p> <p>It is common skin disorder of PILOSEBACIOUS UNIT that primary affects the face, chest and back.</p> <p>Onset of acne typically occurs at puberty because of increased sebum production.</p> <p>Acne become more mark during adolescence because the endocrine gland that increase the secretion of sebaceous glands are functioning at peak activity.</p> <p>Acne appears to stamp from an interplay of hormonal and Bacterial factors, and also seen in cases of family background.</p> <p>Acne occurs when pilosebaceous unit become obstructed with plug of sebum and desquamated keratinocytesⁱ</p> <p>Comedone is uninfected sebaceous plug impacted within follicle are signature of non-inflammatory acne.</p> <p>Comedones are termed open (blackhead), close (whitehead), or</p>

	<p>closed submarine (whitehead).</p> <p>Epidemiological studies have demonstrated that acne is most common in post pubescent teens.</p> <p>The evaluation of acne severity showed that “mild acne” was the most frequent form.</p> <p>Epidemiological studies of acne vulgaris in pubertal age of females is about 92%.ⁱⁱ</p> <p>Causes and risk factors of acne –</p> <ul style="list-style-type: none"> • Excessive sebum production • Irregular shedding of dead skin resulting in irritation of the hair follicle of skin. • Abnormal keratinization of follicular epithelium. • Increase androgen production. • Changes in hormone during puberty. • Genetic family history increase occurrence of acne. • Hair gels or oil based cosmetic. <p>This type of disease treated and cured by homoeopathic constitutional and specific remedies instead of modern line of treatment in which local-topical ointment used from that suppression of skin disease is occurred.</p> <p>In Aphorism 185-203, local maladies are described as one sided chronic disease by Dr. Samuel Hahnemann.ⁱⁱⁱ</p> <p>A research study of “Acne vulgaris” published by Hywel Williams et al. 2012 (published in august 30, 2011) -Here the publisher explained that he is unclear about ‘what exactly triggers acne and how treatment affects the course of the disease.’^{vi}</p> <p>Isaac luxesafe article by Dr. Geetika Mittal Gupta - A specific remedy; Berberis Aquifolium, was found to be effective in the management of skin disorders like acne. Overall percentage improvement observed</p>
--	---

	<p>was ranging from 82% to 100% in 36 – 42 days. Conditions such as scars, dark spots, pits, etc. are difficult to treat. However, with application of Aquifolium cream along with aquifolium drops as oral medication shows noticeable result.^{vii}</p>
Objectives -	<ul style="list-style-type: none"> • To study the efficacy of homoeopathic remedies in management of acne vulgaris. • To study the various causes behind acne vulgaris in puberty of females. • To compare the studies between constitutional and specific homoeopathic remedies⁶
Methodology –	<p>Hypothesis – simple hypothesis</p> <p>Homoeopathic constitutional remedies as well as specific remedies significantly shows role in complete cure of acne vulgaris.</p> <ul style="list-style-type: none"> ○ Study setting Patient coming to the OPD of institute ○ Selection of sample 30 cases from OPD of Homoeopathic institute. ○ Inclusion criteria – -Only females -Age group of 12 to 15 years ○ Exclusion criteria - -Males -Females suffering from autoimmune disease and Chronic diseases. ○ Withdrawal criteria -If patients have acute illnesses like measles, chickenpox etc. ○ Study design -Randomized study: Observation period of study will be 4 weeks one group 15 cases of constitutional remedies and another 15 cases of specific remedies. Does the study require no any investigations. -Selection of tools:- TPR

	<p>-Brief procedure :-</p> <p>Randomly selection of cases of acne vulgaris in puberty of females. One group of 15 cases with constitutional remedies and another 15 cases of specific remedies will receive for months.</p> <p>Homoeopathic case definition will be done in study group to assess the susceptibility of the patients. This study will help us in correction of many variables on as put up in the objectives. Posology (potency and repetition) will be derived based on our understanding of susceptibility.</p> <p>-Outcome assessment: -</p> <p>Acne vulgaris in both constitutional and specific group will be assessed after 4 weeks. Changes in symptoms and signs will be studied in both the groups.</p> <p>The responses will then be evaluated with the posology and general homoeopathic management.</p> <p>Responses in 2 clinical groups will be studied independently to assess if these factors influence the outcome of constitutional and specific remedies.</p> <p>-Data collection: -</p> <p>30 cases of acne vulgaris in puberty of females fully documented with at least 3 months of follow up. 15 cases of constitutional basis and 15 cases of specific basis.</p> <p>Patient coming to the OPD of our homoeopathic institute.</p> <p>Proper criteria of clinical assessment of acne vulgaris with follow up at regular interval of 4 weeks.</p>
Implications-	<p>As the acne vulgaris is most common observed in females, from my research I expect that it should be cured by pure homoeopathic practice completely.</p> <p>From this research I can do the comparative study between the constitutional and specific remedies.</p> <p>Constitutional and specific remedies are helpful to cure and improve in cases of acne vulgaris.</p> <p>Our study will help in future projects and research on acne vulgaris.</p>

CENTRAL COUNCIL FOR RESEARCH IN HOMOEOPATHY**Shortlisted Proposals under Short Term Studentship in Homoeopathy (STSH) 2022**

The Council received 1092 proposals under the STSH 2022 program from students of various colleges. After evaluation, the following students 282 have been shortlisted under STSH 2022 for undertaking research work and submission of the final report.

S.NO	STSH ID	STUDENTS NAME	TITLE	COLLEGE
1	STSH 220004	RAJESWARI SAHU	RANDOMISED CONTROLLED CLINICAL TRIAL ON EFFECT OF CHIONANTHUS VIRGINICA MOTHER TINCTURE IN MIGRAINE ON THE BASIS OF MIGRAINE DISABILITY ASSESSMENT TEST(MIDAS)	DR ABHIN CHANDRA HOMOEOPATHIC MEDICAL COLLEGE AND HOSPITAL, ODISHA
2	STSH 220012	RISHITA MITESH DADHANIA	EFFICACY OF HOMEOPATHIC MEDICINE IN THE MANAGEMENT OF MOTION SICKNESS ASSESSED BY MOTION SICKNESS ASSESSMENT QUESTIONNAIRE: SINGLE-BLIND RANDOMIZED CONTROL STUDY	SMT. A.J. SAVLA HOMEOPATHIC MEDICAL COLLEGE AND RESEARCH INSTITUTE, GUJARAT
3	STSH 220015	RONIL PATEL	A PROSPECTIVE RANDOMISED STUDY ON EFFICACY OF GINSENG IN LOW BACK PAIN.	JAWAHARLAL NEHRU HOMOEOPATHIC MEDICAL COLLEGE, GUJARAT
4	STSH 220020	KARISHMA. M	AN OPEN LABELLED PROSPECTIVE CLINICAL CASE SERIES STUDY TO ASSESS THE LEVELS OF MICROALBUMINURIA OF DIABETIC NEPHROPATHY PATIENTS TREATED WITH SOLIDAGO VIRGAUREA 6CH	VINAYAKA MISSION'S HOMOEOPATHIC MEDICAL COLLEGE AND HOSPITAL, TAMILNADU
5	STSH 220021	AISWARYA LAKSHMI. C	AN OPEN-LABELED PROSPECTIVE CLINICAL CASE SERIES STUDY TO ASSESS THE EFFECTIVENESS OF MORINGA OLEIFERA 6CH IN TREATING IRON DEFICIENCY ANEMIA	VINAYAKA MISSION'S HOMOEOPATHIC MEDICAL COLLEGE AND HOSPITAL, TAMILNADU
6	STSH 220022	SANKENDLA USHAKIRAN	AN OBSERVATIONAL STUDY OF HOMOEOPATHIC MEDICINES IN THE TREATMENT OF ALOPECIA AREATA	DR B D JATTI HOMOEOPATHIC MEDICAL COLLEGE, HOSPITAL & PG RESEARCH CENTRE, KARNATAKA
7	STSH 220023	CHANDANA B K	AN OBSERVATIONAL STUDY ON THE EFFECTIVENESS OF HOMOEOPATHIC MEDICINES IN THE MANAGEMENT OF STRESS AMONG MEDICAL STUDENTS.	BHARATESH HOMOEOPATHIC MEDICAL COLLEGE AND HOSPITAL, KARNATAKA
8	STSH 220025	A VARUNA SRI	EFFECTIVENESS OF ARNICA 6CH& LYCOPODIUM 6CH ON TREATING HYPERURICAEMIA-AN EXPERIMENTAL RESEARCH	VINAYAKA MISSION'S HOMOEOPATHIC MEDICAL COLLEGE AND HOSPITAL, TAMILNADU

Principal
Gulab Rao Patil Homoeopathic
Medical College, Miraj.

S.NO	STSH ID	STUDENTS NAME	TITLE	COLLEGE
38	STSH 220179	M.MARY IMMACULATE	APOPTOGENIC EFFECT OF ZINGIBER OFFICINALE MOTHER TINCTURE (Q) ON HUMAN MYELOID LEUKEMIA CELL LINE (K562) - INVITRO STUDY	SIVARAJ HOMOEOPATHIC MEDICAL COLLEGE AND RESEARCH INSTITUTE, TAMIL NADU
39	STSH 220199	M.SHIREESHA	A COMPARATIVE STUDY TO APPRAISE THE THERAPEUTIC EFFICACY OF STAPHYSAGRIA AND PHOSPHORICUM ACIDUM IN MANAGEMENT OF PERIORBITAL HYPERPIGMENTATION	MNR HOMOEOPATHIC MEDICAL COLLEGE, TELANGANA
40	STSH 220202	MR. ASHWINKUMAR SALIMATH	AN OBSERVATIONAL STUDY ON THE EFFECTIVENESS OF HOMOEOPATHIC MEDICINES IN THE TREATMENT OF OBSESSIVE-COMPULSIVE DISORDER	DR B D JATTI HOMOEOPATHIC MEDICAL COLLEGE, HOSPITAL & PG RESEARCH CENTRE, KARNATAKA
41	STSH 220203	SHEL CY MARIA SEBASTIAN	INVESTIGATING HOMEOPATHIC VERUM AND PLACEBO GLOBULES WITH UV-VISIBLE SPECTROSCOPY	FATHER MULLER HOMOEOPATHIC MEDICAL COLLEGE, KARNATAKA
42	STSH 220206	SHAIK AFSHA TARANUM	AN EXPERIMENTAL STUDY TO APPRAISE THE ROLE OF CINA 30CH IN CONTROLLING ASCOCHYTA BLIGHT FUNGUS IN PISUM SATIVUM	MNR HOMOEOPATHIC MEDICAL COLLEGE, TELANGANA
43	STSH 220214	I.SREE PRAHARSHITA	A STUDY ON THE PREVALENCE OF PSYCHOGENIC DIARRHEA CAUSED BY EXAMINATION ANXIETY AMONG MEDICAL STUDENTS AND ITS EFFECTIVE MANAGEMENT	JIMS HOMOEOPATHIC MEDICAL COLLEGE AND HOSPITAL, TELANGANA
44	STSH 220216	RAMADUGU ANUSHA	EFFECTIVENESS OF INDIVIDUALIZED HOMEOPATHIC MEDICINES IN THE MANAGEMENT OF PRIMARY HYPOTHYROIDISM BY USING THYPRO 39- A CLINICAL STUDY	HAMSA HOMEOPATHY MEDICAL COLLEGE HOSPITAL, AND RESEARCH CENTRE, TELANGANA
45	STSH 220218	ANAM SHAIKH	RETROSPECTIVE OBSERVATIONAL STUDY FOR ASSESSMENT OF RELATIONSHIP BETWEEN STRESS AND HOMOEOPATHIC MANAGEMENT IN CASES OF PRIMARY INFERTILITY	GULABRAO PATIL HOMOEOPATHIC MEDICAL COLLEGE, MAHARASHTRA
46	STSH 220225	MOHAMMAD AZARUDDIN	A RANDOMIZED SINGLE BLIND CLINICAL TRIALS OF EFFECTIVENESS OF OLEUM JECORIS AELLI IN ENHANCING NUTRITION IN MALNOURISHED CHILDREN (1-12YEARS) USING SUBJECTIVE GLOBAL ASSESSMENT SCALE	HAMSA HOMEOPATHY MEDICAL COLLEGE HOSPITAL, AND RESEARCH CENTRE, TELANGANA
47	STSH 220227	RIMMANAPUDI MOHAN SAI	THE EFFECTIVENESS OF OCIMUM CANUM IN RENAL CALCULI	JSPS GOVERNMENT HOMOEOPATHIC MEDICAL COLLEGE, TELANGANA
